

A SINGLE SOURCE FOR SINGLE-PLY ROOFING

DATE: March 9, 2011
TO: Representatives and Distributors
SUBJECT: **Freight Fuel Surcharges**

Due to the raising rates of diesel fuel, effective March 14, 2011, the fuel surcharges will be increased to \$200 for loads over 100 miles. This is an increase from the previous \$175 rate. Our flat charge for shipments less than or equal to 100 miles will remain at \$50. This is due to the national average diesel fuel price reaching \$3.871 for the week of March 7, 2011. Please visit the DOE website for the National Average at <http://tonto.eia.doe.gov/oog/info/wohdp/diesel.asp>.

A "Flat Fuel Surcharge Matrix" was provided in an April 2009 announcement showing the break-out of charges when they would apply.

We appreciate your continued support of Versico. Please contact your Versico Regional Manager if you have any questions.

Sincerely,

A handwritten signature in blue ink that reads "Pam Hosler".
