Heritage® XL AR Series Laminated Asphalt Shingles

See the difference—Heritage XL AR shingles feature a wider-cut sawtooth design for a unique visual appearance.

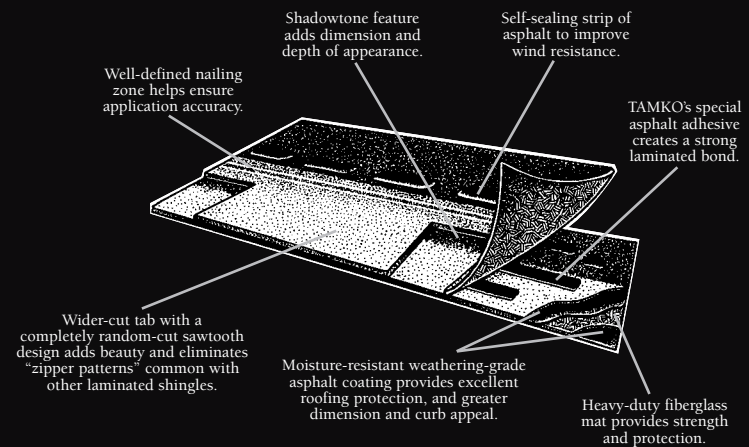

Built to Perform

If you want the best, this is it. The American Heritage Series is TAMKO's finest line of fiberglass asphalt shingles. Heritage XL AR shingles are made with the same superior construction that has come to define the Heritage brand—all in a unique shingle design that adds distinction to any home.

Heritage XL AR shingles come with a 40-year limited warranty. They also come with a 10-year Algae-Relief (AR) limited warranty that provides for cleaning of discoloration caused by certain algae growth that may occur in areas with high humidity.

Top off your new roof with Heritage Hip & Ridge shingles. These specially cut shingles form a protective cap along the various angles of your roof and are available in colors to complement your Heritage XL AR shingles.

Eight color selections are available to convey the distinctive visual beauty of Heritage XL AR shingles. Heritage XL AR shingles are designed to meet ASTM D 3462 at time of manufacture, are Miami Dade County approved and come with a 40-year limited warranty* to underscore their enduring beauty. They also come with a 10-year Algae-Relief (AR) limited warranty that provides for cleaning of discoloration caused by certain algae growth that may occur in areas with high humidity.

The wide-open look of Heritage XL AR shingles—let it distinguish your home with remarkable one-of-a-kind beauty.

Building products
for the professional.

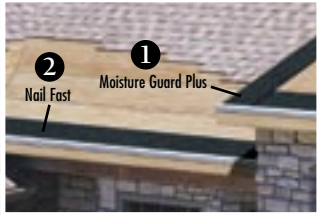

Protect your home to the fullest
with superior TAMKO®
building products.

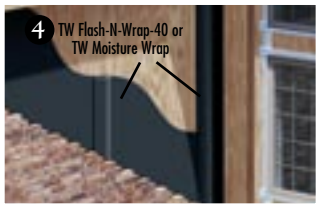

1. MOISTURE GUARD PLUS®

Creates an extra layer of waterproofing protection to help prevent damage from ice damming and windblown rain. Can be applied to the entire roof deck or just the areas where water collects or drainage is slow.

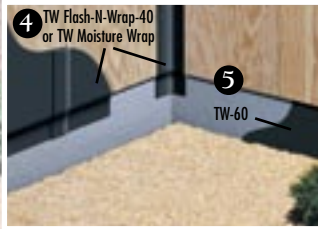

2. NAIL FAST®

Provides a tough secondary layer of protection on the roof deck or in the valley and helps form a watertight seal around fasteners. Perfect as an underlayment for nailable tiles, asphalt shingles and wood shakes.

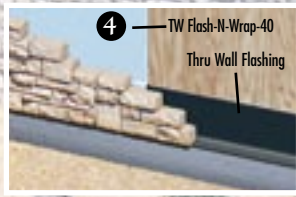

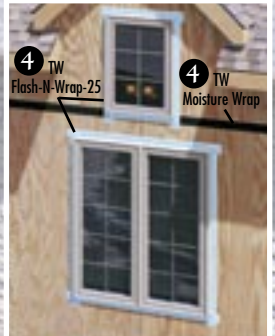

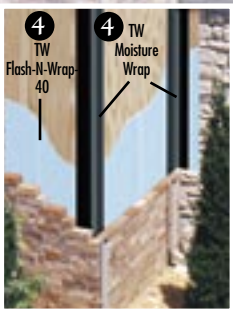

3. ROLL VENT®, RAPID RIDGE® & COOLRIDGE®

These products help assure proper attic ventilation when used in conjunction with appropriate soffit ventilation. By removing potentially damaging heat from the attic, they help lower monthly utility bills and prolong roof life.

4. TW FLASH-N-WRAP® TW MOISTURE WRAP

Provides superior above-grade protection from air and water infiltration in applications such as corner boards, window and door perimeters and on cavity walls. Compatible with concrete, block, gypsum or wood surfaces. Use TW Thru-Wall for in-wall flashing details.

5. TW-60

Creates a virtually impenetrable bond in below-grade waterproofing applications such as on foundation walls, tunnels, earth shelters and similar structures. Can also be used on plaza decks, parking decks, balconies and terraces.

Certain colors and products may not be available in your area.
